The Super Hornet is a derivative of the F/A-18 Hornet, which was first introduced in the 1980s. However, the Super Hornet is a much more capable aircraft, with a more powerful engine, a larger wingspan, and a more advanced avionics suite.

The Super Hornet has been in service with the United States Navy since 1999, and it has also been exported to several other countries, including Australia, Canada, and Kuwait.

The Super Hornet has a proven track record in combat, and it has been used in a variety of operations, including the War in Afghanistan, the Iraq War, and the Libyan Civil War.
