Night Fighters: Hunters of the Reich is a thrilling and informative book that tells the story of the German night fighter force during World War II. The book is written by Christer Bergström and Andrey Mikhailov, two of the world's leading experts on the subject.

The book begins with a brief overview of the history of night fighting, from its origins in World War I to the development of radar in World War II. The authors then go on to describe the organization and tactics of the German night fighter force, as well as the aircraft and equipment that they used.

The book is illustrated with numerous photographs and diagrams, which help to bring the story to life. The authors also include a number of first-hand accounts from German night fighter pilots, which provide a unique insight into the experience of flying and fighting at night.

Night Fighters: Hunters of the Reich is a must-read for anyone interested in aviation history, World War II, or the history of military technology. It is a well-written and thoroughly researched book that provides a fascinating account of one of the most challenging and dangerous aspects of aerial warfare.

## About the Authors

Christer Bergström is a Swedish aviation historian and author. He is the author of numerous books on World War II aviation, including "Barbarossa - The Air Battle: July-December 1941" and "Stalingrad - The Air Battle: 1942-1943".

Andrey Mikhailov is a Russian aviation historian and author. He is the author of numerous books on World War II aviation, including "Wings of the Motherland" and "The Battle of Kursk: The Air Battle".
