25 Innovators Reimagining the Way We Eat

The food industry is undergoing a profound transformation, driven by the rise of technology. From farm to fork, every aspect of food production, distribution, and consumption is being reimagined by a new generation of innovators.

In the book *Tech to Table: 25 Innovators Reimagining Food*, we profile the pioneers who are leading this revolution. These individuals and their teams are harnessing the power of technology to address some of the most pressing challenges facing our food system, such as food security, sustainability, and nutrition.

Meet the Innovators

- Patrick Brown, CEO and founder of Impossible Foods, is developing plant-based substitutes for meat that are virtually indistinguishable from the real thing.
- Rachel Neumann, co-founder and CEO of Koios, is using AI to help consumers track their food consumption and make healthier choices.
- David Rose, founder and CEO of AeroFarms, is pioneering the use of vertical farming to grow crops indoors, using less water and land than traditional agriculture.
- Paul Polman, former CEO of Unilever, is now the co-founder of the Sustainable Food Policy Network, which is working to create a more sustainable food system.
- Ryan Pandya, CEO and co-founder of Yummi, is using technology to make healthy and affordable food more accessible to low-income communities.

The Future of Food

The innovators profiled in *Tech to Table* are just a few examples of the many people who are working to create a more sustainable, equitable, and delicious food system. Their work is paving the way for a future in which food is more nutritious, accessible, and environmentally friendly.

Tech to Table is an essential read for anyone who is interested in the future of food. It is a behind-the-scenes look at the individuals and technologies that are transforming the way we eat.
