FEATURE PROJECT

METALLIC BUILDING COMPANY

LaFrambo Vineyard and/or
any new buildings on the 140
acre facility. The 115 x 110 feet structure is for
metal storage and the other
is a new treatment facility
amounting to 11 x 10 x 12 feet.
The structure needed a flexible
system to match the existing

facility, maintain an existing steel and include an 8' compliance Sign Valley
Pre-engineered buildings have become increasingly popular in the wine industry
because of the ability to produce a wide array of options. Additionally, the
option of adding different materials to provide an aesthetic appearance is another
attractive advantage.

A white steel structure provides the high-no-cooling system for both temperature
consistency. The new building provides indoor storage and space to enhance the
appearance of the exterior walls to match the existing building.
